As a spine surgeon at NYU Langone Hospital—Brooklyn, Dr. Kola Jegede delivers world-class and innovative orthopedic care to our patients. He was first drawn to surgery after witnessing how a hip replacement restored a family member's mobility and eliminated the painful effects of arthritis. "I found it amazing that within a matter of weeks, a doctor could change someone's quality of life," says Dr. Jegede.

We're so inspired by Dr. Jegede's desire to make a difference and pave the way for others to do the same. Join our team of healthcare professionals and make an impact! Explore **#NYULangoneCareers** now: <https://bit.ly/3InsIOA>
